## SDL\* Passolo

<b>Course Title</b>	<b>SDL Passolo 2018</b>
<b>Learning Objectives:</b>	This course is designed to introduce attendees to working with SDL Passolo 2018 to enable you to translate your first project. After a short presentation of the basic principles of software localization, the rest of the day will be spent using SDL Passolo 2018 to undertake a simple translation. On completion of this course attendees should be able to undertake their own localization project.
<b>Target Audience:</b>	This course is suitable for anyone who wants to localise software using SDL Passolo 2018.
<b>Prerequisites:</b>	A basic knowledge in the use of translation tools.
<b>Course Delivery Mode:</b>	This course is available on a single company basis only and in the following delivery modes: <ul style="list-style-type: none"><li>- hands-on and classroom based, delivered over 1 day</li><li>- live and web based, delivered over 3 hours</li></ul>
<b>Further Information:</b>	For further information on any of our courses, training delivery options and course dates, the SDL Certification programme or course fees please contact us at <a href="mailto:producttraining@sdl.com">producttraining@sdl.com</a>
